

NYU TRADE

a virtual marketplace for the nyu abu dhabi community

by students, for students

the problem?

and this is less than a third of the total posts about f1 in the past week

the problem

buyers present,
sellers present,
do not find each other

Room of Requirements
used to communicate
important information
to the student body.

Room of Requirements
crowded with posts &
requests, so important
information gets lost.

our solution: **NYU TRADE**

→ centralized website for NYU community members (SSO login).

→ members can post about products, businesses and money exchanges.

→ members can request the same.

technology used
